## Editorial

This summer's rather gloomy weather didn't stop the tourists coming. On the contrary! According to the first lot of feedback from the Tourist Office and certain tourist-linked economic players, the numbers were actually superior to those of previous years. Our unique situation, both rural and patrimonial, which allows us to have a certain quality of life, is proving its importance and potential.

Of course, this boost is brought about by all the activities and events proposed. We are grateful to all the associations and the many volunteers, thanks to whom some wonderful events punctuated the season, like for example the traditional medieval festival or the brand new "Festival des Arts Franchis".

We equally thank the town hall staff and the young seasonal workers. They looked after the logistical side of things and therefore greatly contributed to the success of these events.

We have a rich community life all year round. Recently we had the honour of welcoming Monsieur Denis Conus (the Prefect), along with Mr Yohan Mougnot (the Sub-Prefect), They visited Pollen in rue St Pierre and showed a lot of interest in the work of painter Cathy Jardon and designer Jan Bourquin. The display is on show until the St André weekend and we encourage you to visit it if you haven't already.

On the economic front, our "new arrivals" are satisfied with their start. The fact that our *Commune* is classed as a ZRR (Rural Revitalisation Zone) has enabled the Council to vote (unanimously) for a three-year tax exemption on the local part of the CFE business tax, for any new artisans and businesses setting up in our *Commune*. The precise terms and conditions are available from the Town Hall, so please don't hesitate to find out more.

In this newsletter you'll find the results of the questionnaire about parking and traffic flow in the Bastide and the solution put in place in accordance with your replies and our 'experience'. The feedback given shows your interest in the life of the *Commune*. This time round, we would like you to complete and return another questionnaire (supplied) which, as previously mentioned, concerns your complementary health care cover.

Our willingness to involve the *Monflanquinois* in decisions which concern them remains a strong commitment. At the end of September we also consulted all the farmers in the *Commune*, to enable us to better understand what products are available to buy locally.

In a general context, sometimes difficult, we are doing our best to improve things as much as possible. Try to make the most of this beautiful late Autumnal period. I hope it is as pleasant as possible for you.

**Nathalie Founaud-Veysset, Mayor of Monflanquin**

## Parking and Traffic Circulation Questionnaire

82 households in the *Commune* of Monflanquin completed the questionnaire supplied with our first newsletter. We thank them for their comments which fueled our thought process.

These *Monflanquinois* can be separated into three, almost equal, geographical origins; 32 % live in the heart of the village, 36% in the periphery close to the Bastide (10% on the housing estate) and 32% in the countryside.

Of those who live in the village centre, 63% don't have a problem with parking as they have a garage. The other residents park in the streets, on the Cap Del Pech and above all on Place Caladon. The North car park is hardly used – by two households only.

Of those who don't live in the centre of the Bastide, a third of them say that they come to the village every day and 35% come several times a week. They enter by the Bld de la Liberation. They come first of all for the market, then, on equal levels, for the doctors, the administrative bodies, the shops, the leisure facilities. 26% come for work. Their preferred parking place is the Cap del Pech, followed by the Tour de Ville and the different squares in the village. Eight people said they used the North car park. 50% parked there for long periods of time.

The definition of the Holiday Season is quite varied. 42% envisage it to be 15<sup>th</sup> June to 15<sup>th</sup> September, 35% from 1<sup>st</sup> July until 31<sup>st</sup> August, 22% from 1<sup>st</sup> June to 30<sup>th</sup> September. Three people would like it to be longer – from Easter to Toussaint.

### Traffic restrictions

- **Holiday season:** 71 % are favourable to some level of restriction during the holiday period. For the main square (Place des Arcades) the figure is overwhelming at 93%. Equally mentioned, but to a much lesser extent (around 15%), are the roads St Pierre, Ste Marie and de L'Union. 29% are against any restrictions; the arguments being around the life of the village and the activity of the shops.
- **All year round:** 85% are against parking restrictions all year round.

### Parking restrictions

- **Holiday season:** 75% would like parking restrictions during this period. The Place des Arcades was mentioned in 90% of the cases, the roads St Pierre, Ste Marie and de L'Union in 12-13% of the cases. 25% are opposed to any restrictions.
- **All year round:** 70% would like as many parking spaces as possible in the Bastide. The others request restrictions in the main square (Place des Arcades), in particular along the side of the Arcades.

### Certain comments kept coming up:

*"We need to be able to drive in the Bastide to have access to the shops."*

*"In the summer, for tourism, forbid parking in the main square (Place des arcades)."*

*"Facilitate parking to give better access to the shops (outside of the holiday season) and put measures in place to avoid cars being parked permanently directly outside e.g. spaces with a parking time limit."*

*"Think about people with reduced mobility."*

*"Encourage better use of the North car park by people who work in the Bastide."*

*"Reserve certain spaces for the villagers."*

*"Move the parking spaces to the opposite side of the street every fortnight."*

**All these remarks have given us food for thought.....**

### Three trends stand out:

- There are two clear periods to plan for: 'the holiday season from June to September' and 'the rest of the year'.
- There is an overwhelming preference to restrict all parking in the main square (Place des Arcades) during the summer (without using bollards).
- There needs to be a traffic circulation and parking plan for the winter period which helps the economic activity of the Bastide.

### And now? Since October 2014:

- A one-way traffic system has been re-established on the Place des Arcades.
  - At the top of the square from West to East and at the bottom from East to West.
  - East and West sides: only descents are authorised.
  - Parking is possible directly next to the main square on the East and West sides, but it is forbidden along the Arcades.
  - For the moment, parking in the streets is unchanged.
- The dialogue continues!

## The Word from the Minority

As regards the Mayor and the deputies, the tone has been set.

The council has elected its management team (the mayor and her five deputies). The choice of the new team is significant: five public service employees and one semi public service employee. No farmers, shopkeepers, artisans, professionals or retired people....

A uniform representation, which doesn't reflect the reality of the *Commune*, but the ideological political orientation of this majority.

We would like, for the *Monflanquinois*, open-mindedness and dialogue contrary to that which took place at the council meeting where the locals from the Place des Arcades didn't have the right to talk about the new traffic and parking rules for the square.

Patrick WEICK.

## Economy

### CFE Tax Exemption: a clear message to businesses

Monflanquin has been classed as a rural revitalisation zone for a number of years. Anyone who wants to set up a business here can benefit from tax exemptions if they adhere to certain conditions. For example, tax exemptions on profits are automatic for businesses adhering to given criteria.

The law also gives the possibility to those *Communes* who would like to, to offer a tax exemption on the local business tax (CFE -Contribution Foncière des Entreprises). This 'choice' has never been made before.

In order to become a more attractive *Commune* and encourage new business activities, we voted (by deliberation on 26<sup>th</sup> August 2014) to introduce the tax exemption on the CFE business tax for any new businesses wanting to set-up in Monflanquin or to someone taking over an existing business in difficulty. The exemption is valid for a three-year period and applies to businesses setting-up from January 2014.

To benefit from this tax exemption, all eligible businesses have to contact the tax office during the first year. Please contact the Town Hall for further information.

## Agriculture – The local consumer is key

A questionnaire has been sent to all farmers in the *Commune* (please can any 'late-completers' return it as soon as possible). The completed questionnaires will enable us to produce a list of the products sold by our farmers, so that we can supply the primary school canteen with local products and also prepare a directory for all Monflanquin consumers: individuals, associations, restaurateurs.

This questionnaire also asks farmers their opinion about having an Agricultural Festival. The idea is to 'open' the farms so that everyone can discover how people work and live on a farm nowadays. Once in a while people take the opportunity to visit farms that sell direct to the consumer, but these types of farms currently represent only 20% of all farms in the Lot et Garonne. To us, it seems important to open the doors to the other 80%.... Tree growers, cereal farmers, cattle breeders, we are counting on you to help us discover the *Monflanquinois* farming industry.

**Fruit and vegetable production** uses 9% of the useful agricultural land in the department, but it is responsible for 42% of the overall production value.

The Lot et Garonne is one of the 15 French departments with the highest number of salaried farm employees thanks to the production of fruit and vegetables and to the mixed farming systems which employ three quarters of the salaried employees.

(Source: 2011 'The general state of farming' - the Lot et Garonne Council).

### **The deputy prefect visits "GAEC des 7 lieux"**

On the 6th August, the deputy prefect Mr Johann Mougnot (accompanied by Monflanquin's Mayor, its councillors and the Conseiller General), visited the "GAEC (Groupement Agricole d'Exploitation en Commun) des 7 lieux" farming group. Claire Vidal, Daniel Vidal, Luc Vidal and Jean Pierre Reigne, four of the seven GAEC associates presented the farm: walnut trees, hazelnut trees, plum trees and cereals....

The visitors were impressed by how modern the set-up is, the irrigation system in particular – an underground drip feed system which gives a 60% water saving and a system which enables them to have real-time information about the trees water consumption. The GAEC associates wanted to make the political personalities present aware of the necessity for irrigation, which has changed their entire territory permitting added-value production. Above all they have developed tree orchards of superior quality which today support seven families. Not only the farmers benefit from this type of irrigation system, but also the entire Lot et Garonne department – a stronger economy and job creation.

## **A big WELCOME to the Bastide's New Businesses.**

### **M-H CREATIONS**

It's in Rue Saint-Pierre that Marie-Helene Huzet chose to set up her business in the spring. She offers interior furnishings design and creation (curtains, cushions..), personalisation of household linen, clothing alterations and a dry-cleaning drop off and collection point. You can also find bags, homemade decorations....No wonder! Our new shopkeeper is a seamstress by trade and worked for several years with the most famous French leather craftsman. Living in Monflanquin for the past 12 years, Mme Huzet hopes to develop her activity all year round. You can find her in her shop from Tuesdays to Saturdays from 9am-12.30pm and 2pm-6.30pm.

## LES PIEDS DANS L'EAU

“Feet in the water”, what an evocative shop sign! Jean-Luc Cassagne, located on the Boulevard de la Liberation (the Villeneuve road), builds and renovates swimming pools, and guarantees an after-sales service. He also supplies spas, saunas and all products related to the maintenance of pools and their equipment. In season his shop is open from Monday to Saturday, 9am-12.30pm and 2pm-6.30pm. From November the shop opens on Thursdays, Fridays and Saturdays only.

## LE TEMPS D'UN THE

Time for a cuppa, but don't make a mistake! You can taste more than 20 varieties of tea in this pretty tea shop situated in Rue St Pierre. Alena CHABROT also offers lunchtime meals. Some of the dishes are recipes from her homeland, Russia, but she also prepares traditional French food with a touch of originality. Everything is homemade, from the starter to the dessert. Mme Chabrot welcomes you from Tuesday to Sunday (lunchtime and afternoon), or, by reservation, on Friday and Saturday evening.

## LE BISTROT DU PRINCE NOIR

The sign hasn't changed, but the owner has: It's Nathalie Ruddick who has been running this restaurant (de la Corniere) since the Spring. Nathalie, who has worked in the building industry with her husband for several years, has started a new adventure along with her three employees. The restaurant provides traditional food using local products. The menu is regularly reviewed. The establishment stays open all year round, closing only on Tuesday evenings and Wednesday all day.

## MC MAROQUINERIE CREATION

Pas de doute, nous sommes chez une créatrice ! Sacs originaux, petite maroquinerie colorée, ceintures, bracelets ...Malika COUILLAUD vous présente son travail place des arcades tous les jours sauf le mardi et le samedi matin. Styliste puis ensuite costumière, la maroquinerie est le métier que Malika a choisi d'apprendre et d'exercer, tout d'abord en Charente Maritime et depuis avril à Monflanquin. Son magasin restera ouvert jusqu'en décembre et rouvrira ses portes en avril 2015.

No room for doubt, she is a creator! Original bags, belts, bracelets, small leather items of every colour... Malika Couillaud shows off her work in the place des Arcades every day except for Tuesdays and Saturday mornings. Stylist and then costume maker, leather craftsmanship is the profession that Malika then chose to learn and exercise, first of all in Charente Maritime and since April in Monflanquin. Her shop stays open until December and will then reopen its doors in April 2015.

## IL ETAIT UNE FLEUR

It's on the Road to Villeneuve (next to the Ambulance station) that young florist Marion Brazzorotto, has chosen to establish her brand new business. She sells flowers, plants, floral compositions, room decorations, bouquets... Marion has worked as a florist for the last three years (since obtaining her professional florist qualifications). Her shop is open all year round from Tuesday to Saturday, from 9am to 12.30am and from 3pm to 7.30pm, and on Sunday morning from 9am to 12.30pm.

## Education

### The extra-curricular activities linked to the reform of the school timetable began in September.

The activities are organised based on the age of the children. At the nursery school, four groups have been set-up. The older children are looked after by external contributors (sport, gym, library) and the other three groups by the school ATSEMs (specialised nursery school assistants).

At the primary school, two groups have been created: the first is for the CP/CE1/CE2 classes and the second for the CM1/CM2 classes. A number of activities are offered: art, sport, food-health, gym, library, comic-strip creation, musical awareness, safety, environment, scrabble, chess, theatre, multimedia, dance and English.

### Assisted studies for the older children..

Assisted study has been put in place by the Commune of Monflanquin. Open to the children in CM1 and CM2 classes, but limited to 15 places per day, the study sessions are monitored by retired teachers or people having already taught. They take place on Mondays, Tuesdays and Thursdays, at the same time as the TAP (Extracurricular activity time = time organized by the Mairie) or the L'APC (Complementary teaching activity – time managed by the teachers). Their objective is to get the student used to daily homework, to help them to learn their lessons, to re-explain things not understood.

- All these activities are free or paid for by the Council.
- To manage this way of working, solutions have been found and put in place - lockers for the two-way communication notebooks, colour-coded lists of pupils posted in the playground.
- On Thursday 9th October, a meeting was organised by the Council and the *Communauté de Communes* with the aim of replying to parents' legitimate questions.

Lower pupil numbers for next school year		
Class	2014-15 Number	2015-16 Number
TPS et PS	5 et 17	13
MS	17	17
GS	18	17
<b>Total nursery school</b>	<b>57</b>	<b>47</b>
CP	18	18
CE1	24	18
CE2	24	24
CM1	27	24
CM2	28	27
<b>Total elementary school</b>	<b>121</b>	<b>111</b>
<b>Total primary school</b>	<b>177</b>	<b>158</b>

### A new school bus

School transport has been put under strict control. Our bus, 'reaching the age limit' has been replaced. The new bus will be more accessible for people of reduced mobility. The investment is consequent – 90,000 euros.

## The Council's spending in the primary schools

At the nursery school

- Replacement bedding
- Installation of summer blinds in a classroom (older children)
- Replacement of a radiator in a classroom (younger children)
- Refurbishment and increase in size of the playground.

At the elementary school

- Replacement of the old PCs by 15 new laptop computers
- Purchase of some of the equipment needed by the school counsellor.

The CM1 class is participating in the 'School-Cinema' project; tickets have been paid for by the *Commune*.

## A big thank you to the technical services team

The town hall's technical services team works all year round. You either don't know them very well or not at all. And actually, they facilitate and improve the lives of all the *Monflanquinois*.

In the last six months, we can mention, amongst other things:

- The necessary electrical renovation of the flat made available to the association Pollen which accommodates the artists in residence at Pollen. This flat is located above the Seniors' club.
- The installation of ball nets at the football stadium.
- The installation of a new iron fence in the elementary school playground; the playground is now much bigger.
- Improvement of the IT network for the administrative service at the Town Hall
- The logistical aspects of the Medieval Festival.

## SPORT

### WELL DONE: More than 450 sports people in Monflanquin.

Well done and thank you to the MAC (Monflanquin Athletics Club) for organising the 7th Foulées *Monflanquinoises* (running competition and walking circuit), to the association ReCréAction for the Car boot sale, to Cyclo4 for the bike ride, to Quad Evasion for the entertainment. Thank you also to the judo, boxing, gym, handball, tennis, table tennis, rugby, basketball and paragliding clubs for having participated in Defi Sport:

Defi Sport is a friendly Sport-Health Challenge between the Communes of Aquitaine. It takes place every year. It is a good opportunity to discover all the sports available in your *Commune*. We hope as many of you will be there next year!

## The Council supporting the sports clubs

Maintenance work and improvement of sports venues and equipment:

- Reinforcing the lighting at the Bouledrome (need to increase the amperage)
- Waterproofing the gym roof on the tennis court side.
- Ball nets at the football stadium
- Roof and interior refurbishment of the 'exterior' Tennis Club House
- Repair work on the roof of the swimming pool
- Fitting out a 44m<sup>2</sup> room in the winter tennis club house

The council has put contracts in place with all the sports clubs. The reasons are:

- a) To agree on the rules about using the sports premises.
- b) To make users take responsibility for these premises: lights, access, possession and circulation of keys, sharing space with other sports teams.....

## Roads and Paths

### An important financial commitment for roads and paths

Your council wishes to repair and put back in good condition a large number of roads in the *Commune*. We have allocated 110,000 euros for this in 2014 and we have made a commitment to continue the road and path renovation work throughout 2015 with the same amount of budget.

As priority we are treating:

- roads and paths of 'community interest' which will be passed over to the *Communauté des Communes*.
- roads that leads to several houses
- very damaged roads that have not been redone for several years

In the Bastide, work has started in Rue de Laures. The road surface will be redone, along with the waste and rain water network. The public footpath leading up to from the old CFA building will also be addressed.

### What is a path of 'community interest'?

Some roads are said to be of community interest. They ensure the link between the departmental roads or lead to at least three households. In the end the *Communauté de Communes* will be responsible for maintaining them. However, before transferring them, the local *Communes* have to ensure they are in good condition.

Roads redone in September and October 2014: Piquemil, Larouquette, Cante Perdrix, Salefou, La Puissante, Saint Luc, Marsal, Latrigue, Séguy, Pillard, Nicou.
--

## Living together

We are asking all those *Monflanquinois* with hedges, trees and shrubs along their property borders to cut them back, to regularly control their growth and take any green waste to the local tip.

Where this doesn't happen, because plant growth impacts the safe use of paths and roads, we will be obliged to get private businesses to undertake this work. This work will of course be billed to the owners or tenants concerned. We refuse to ask our technical services team to do this work (at the cost of all the *Monflanquinois*) as has been the case until now.

## Environment

**Re-organisation of the rubbish collection service = Fewer collection points (but more complete and better maintained).**

### Why a reorganisation?

Waste collection is the job of the *Communauté de Commune*. Today there are a number of differences in how rubbish is collected across the cantons: door to door in five village centres (Villeréal, Castillonnès, Cancon, Monbahus, Le Sauvetat), a number of common collection points in Monflanquin, roadside collection points in the countryside around Villeréal and some common collection points (1-3) in the Canton of Castillonnès.

Until now, Castillonnès had a private collection company. The contract came to an end and this Commune didn't want to renew it. From now on the collection will be provided by the *Communauté de Communes* as it is in the other cantons. It is therefore necessary to reorganise the rounds and the collection points across all the cantons.

### What will change?

- Creation of some common collection points (1-4) for household waste (green bin lids), recycling (yellow bin lid), columns for glass and paper.
- Cancellation of door to door collection in the village centres.
- Collection of household waste every day in the main villages and twice a week in all other villages.
- Maintenance of common collection points; bins, columns, ground.

### So, for Monflanquin....

There will be fewer collection points. That means everyone will need to go further to dispose of their rubbish. On the other hand, the collection will be daily and there will be sorting bins for all rubbish types at every collection point. These collection points will be better maintained, cleaner, with bins in good order. The objective is to encourage everyone to sort more.

### Come to visit the Waste Disposal centre

Monflanquin's council would like to invite you to visit the Albie waste centre on Saturday 22<sup>nd</sup> November at 10h30 on the site of Albie (Commune of Monflanquin, route de Villeneuve-sur-lot). Meeting point at the site entrance. Bring friends and family for this informative visit (along with wellington boots).

### The Council cares about your safety

The La Fon de Pommier crossroads have been modified. Vehicles arriving from Montagnac no longer have priority.

There is a new footpath in front of 'La Tonnelle' to link the old CFA path to the shops at the crossroads.

### Sale of 'Sieiro' House

The council is selling a house located in the Bastide - at 6 Rue de l'Union. Habitable\_surface area 96m<sup>2</sup>  
Price 30,000 euros (estimation). More information available from the Town Hall.

## Social Action, Health, Solidarity

### "Social" put into actions

The Communal Social Action Centre (CCAS) is the local body that puts to work the social policy defined by our elected councillors. It was recently re-organised with the aim of making it more efficient.

- Isabelle Soufflet, trained administrator, works two half-days a week exclusively for the CCAS
- Christine Gonzato-Roques, Deputy Mayor for Health, Solidarity and Social Action is in charge of its vice-presidency.
- The service is available at the Mairie: Mondays 8.30am-12pm, Thursdays 9.30am-12pm, Fridays 8.30am-12pm, other days and times by appointment (05 53 36 40 05)

You can get help to complete your paperwork, information about your rights (RSA, CMU, AAH....) as well as a warm welcome and listening ear, and, if necessary, 'redirection' towards the appropriate partners.

One of the compulsory roles of the CCAS is the battle against exclusion; from this perspective, since the council elections, we have worked on two priorities:

- 1) Help to return to work or to keep a job
- 2) Access to health for everyone

Today, we are able to offer two new systems which serve these priorities:

- 1) The creation of an APPREVA meeting point in Monflanquin: car hire for people receiving social aid, young adult followed by the *Missions Locales*, certain job seekers... The right to access this car hire service is decided by a social worker, a *Mission Locale* advisor or job centre advisor. The vehicle can only be rented in the context of job or work experience hunting, to keep a job or for access to training.
- 2) The possibility to have a complementary health service policy from the start of the year, benefiting from a group rate negotiated by the Council. Certain information is necessary to bring this project to fruition and because of that we have attached a questionnaire with this newsletter. We hope to receive a large number of responses from you, so we can help provide a better service for everyone.

## Social Information

Working in partnership with the Villeneuve *Mission Locale* and the *Communauté de Communes*, four meetings have been organised to inform on the subject "Employment: procedures and contracts":

- Cancon , Salle des mariages, 3rd November at 6.15pm
- Castillonès, Salle Carbonnier, 12th November at 6.15pm
- Villeréal, salle François Mitterrand le 17th November at 6.15pm
- **Monflanquin, Salle des Fêtes, 19th November at 6.15pm**

Company directors, artisans, shopkeepers, professionals, farmers, representatives from associations and job seekers (in particular those between 16-25 years old) are invited.

## CIVIL LIST

26<sup>th</sup> June - 4<sup>th</sup> October 2014

### Births:

27th June TRUSSANT Inès  
19th July MONGARNI FERNANDES Gabin, Yves  
18th August GILBERT Nino, Stan

### Marriages:

9<sup>th</sup> August CEZAR Sébastien et CAUJOLLE Florence  
9<sup>th</sup> August AUZERAL Frédéric et FAUCHÉ Isabelle  
23<sup>rd</sup> August LABORDE Marc, Mathieu et OLLES Muriel, Corinne  
30<sup>th</sup> August BELLEAU Jérémy et HOFFMANN Blandine, Claude, Marie  
6<sup>th</sup> September PAGES David et CAVALIER Emilie  
6<sup>th</sup> September MAREST Thibault Philippe Christophe et LABEDAN Agnès, Isabelle  
20<sup>th</sup> September ISUS Yves Francis et GIMBERT Martine, Josette  
30<sup>th</sup> September FIOL Patrick et DHELIAS Véronique  
4<sup>th</sup> October SIBILLE Patrick Joseph Nicolas et COSTE Florent Guy Hervé

### Deaths:

21<sup>st</sup> June ALVAREZ Simone, Marcelle, wife of CHAMOULEAU  
30<sup>th</sup> June FRANCÈS Norbert, louis  
2<sup>nd</sup> July SIGNORI Rita, veuve GIRARDI  
16<sup>th</sup> July D'ANDRIESENS Françoise, Marie, Renée, Paule, widow of LÈBE  
16<sup>th</sup> July EVANS Robin, David  
6<sup>th</sup> August SAMARUT Gérard, Didier  
18<sup>th</sup> August MORICE Angèle, Marie  
21<sup>st</sup> August ESPAGNET Lucien, Gilbert  
25<sup>th</sup> August PARREL Marie-Louise, wife of GERVAUD

### Deaths of people born in Monflanquin:

8<sup>th</sup> July MAURA Guy, Michel (1940)  
20<sup>th</sup> July ESTEVE Christian (1941)  
8<sup>th</sup> September MELLET Jean (1925)  
8<sup>th</sup> September GOUYOU Yvonne (1924) wife of SIRAUD  
8<sup>th</sup> September BERBILLE Suzanne, Irène, Huguette (1927) wife of GUYADER  
14<sup>th</sup> September ESCOURRE Germaine, Marie, Thérèse (1927) widow of COUAILLAC

## Questionnaire - Complementary Health Cover

To be returned to the CCAS, Monflanquin Town Hall (in the “returned questionnaires” box placed in reception) before 15<sup>th</sup> November 2014.

### Do you have complementary (top-up) health cover?

- Yes
- No

### You don't have complementary health cover because:

- You are already covered 100% by the CPAM, MSA, because of a long term illness.
- You believe that it wouldn't be beneficial because you have no or few health problems and prefer to 'pay as you go'.
- You would like to be 'covered' but you don't have the means.
- You are in the processing of setting up a policy
- Other

### Would you be interested in?

- A proposition to subscribe to a complementary health cover (not income dependant) where the rates would be negotiated by the council.
- A study of your rights in terms of healthcare cover (CMU complémentaire, Aide à la Complémentaire Santé).

### Household composition

Number of adults \_\_\_\_\_

Number of children \_\_\_\_\_

Age of adults \_\_\_\_\_

Age of children \_\_\_\_\_
